

Graphics Kit

These graphics can be slapped onto t-shirts, totes, hoodies—you name it! There are plenty of online merchants who will print images on all sorts of things, and these files are ready to send. You can also [create your own iron-on transfer image](#), which is easy and cheap, but won't last very long if you wash the garment a bunch. Go nuts!

Please email us pics of the stuff you make (if you want)--it would make us so happy to see what you come up with! ShoutYourAbortion@gmail.com
